

APPENDIX A – RELEVANT CASE TYPES FOR MEMBERSHIP APPLICATION
PLEASE INDICATE THE NUMBER OF CASES YOU DID IN EACH CATEGORY

		N° of Cases	Time Period
CRANIUM			
	Osteotomies		
	(e.g., in craniosynostosis)		
	Frontal Advancement		
1.	unilateral, without orbit		
2.	unilateral, with partial orbit		
3.	unilateral, with total orbit		
4.	bilateral, without orbit		
5.	bilateral, with partial orbit		
6.	bilateral, with total orbit		
	Reconstruction		
1.	full thickness skull with bone graft		
2.	full thickness skull with other material		
3.	onlay to skull with bone graft		
4.	onlay to skull with other material		
	Tumor resection		
	Acute trauma		
ORBIT			
	Osteotomies		
1.	unilateral, total - intracranial		
2.	unilateral, partial - subcranial		
3.	unilateral, partial - intracranial		
4.	bilateral, total - intracranial		
5.	bilateral, partial - subcranial		
6.	bilateral, partial - intracranial		
	Reconstruction		
1.	inlay with bone graft		
2.	inlay with other material		
3.	onlay with bone graft		
4.	onlay with other material		
	Tumor resection		
	Acute trauma		

		N° of Cases	Time Period
MAXILLA			
	Osteotomies		
1.	Le Fort III - intracranial with forehead advancement		
2.	Le Fort III - intracranial, without forehead advancement		
3.	Le Fort III - subcranial		
4.	Le Fort II		
5.	Le Fort I		
6.	Segmental		
	Reconstruction		
1.	inlay with bone graft		
2.	inlay with other material		
3.	onlay with bone graft		
4.	onlay with other material		
	Tumor Resection		
	Acute Trauma		
MANDIBLE			
	Osteotomies		
1.	unilateral		
2.	bilateral		
3.	segmental		
	Reconstruction		
1.	inlay with bone graft		
2.	inlay with other material		
3.	onlay with bone graft		
4.	onlay with other material		
	Tumor Resection		
	Acute Trauma
