Announcement and call for abstracts

VI BIENNIAL MEETING OF THE INTERNATIONAL SOCIETY OF CRANIO FACIAL SURGERY

SAINT-TROPEZ 21-24 OCTOBER 1995

Dear Friends :

Ten years after our first meeting in la Napoule, we will be back on the French Riviera for our VIth Meeting. You all know of Saint-Tropez - this small, old harbour, fortified by Vauban under Louis XIV's reign, has become the most fashionable place on France's southern coast.

During the summer, there are crowds everywhere. Late October, the weather is usually still very pleasant and should enable us to enjoy, at leisure, the charm of the little city, its narrow streets, churches, and museum.

In mid-October, there is a famous sailing race, the "Nioulargue", which brings to Saint-Tropez the most beautiful sailing boats. There is a school holiday late in October so, although the city will be quieter than at the height of the season, it will still be lively, with a great variety of the trendiest fashion and luxury shops in the world.

We have kept the same dates in late October initially decided in Oaxaca for our Marrakech meeting, since they seem convenient for most of us, even if the weather conditions may not be quite perfect.

The Scientific Meeting will be held in a modern conference room created in a nice, old building in the center of the city, a few minutes' walking distance from the hotels.

The entire area surrounding Saint-Tropez is very pleasant and many of you will like spending a few extra days wandering about.

I know that many will regret not going to Marrakech. We had to make this change in venue because of the very unstable political situation in neighboring Algeria.

A pre-Congress tour of Marrakech led by Paul Tessier and myself will be organized, if the situation permits, for those who want to take the opportunity to visit this magnificent city.

We could not, however, take the risk for the entire Congress.

I look forward to welcoming you in Saint-Tropez for a scientifically exciting and friendly Meeting.

*Daniel Marchac
President and Chairman*

PAPER - VIDEOTAPE - EXHIBITS

INSTRUCTIONS FOR COMPLETING OFFICIAL ABSTRACT FORM

ABSTRACT DEADLINE: APRIL 1, 1995

ABSTRACT LENGTH: 160 - 200 WORDS

PRESENTATION TIME: PAPERS 3 OR 8 MINUTES, VIDEOS 8 MINUTES OR MORE

OFFICIAL LANGUAGE: ENGLISH

REMINDERS:

PAPERS

1. Include the following in your abstract:
 - Statement of Purpose
 - Statement of Methods
 - Summary of Results
2. Photos encouraged (maximum 2) as long as they enhance the quality of the abstract.
Be sure to submit 6 copies
3. Dual projection available

VIDEOTAPES

1. Submit abstracts outline as above
2. All videotapes must be 2/4" U-matic N.T.S.C. or Pal Secam
3. First generation tapes required for free standing presentation
4. All tapes must be time-based corrected
If tape is not time-based corrected, serious video projection problems can occur
5. Include 30 seconds of color bars prior to the start of your tape

Video presentation can be done to replace a paper presentation, or to be included during a slide presentation, and cannot then be longer than the time allocated, 8 minutes at most.

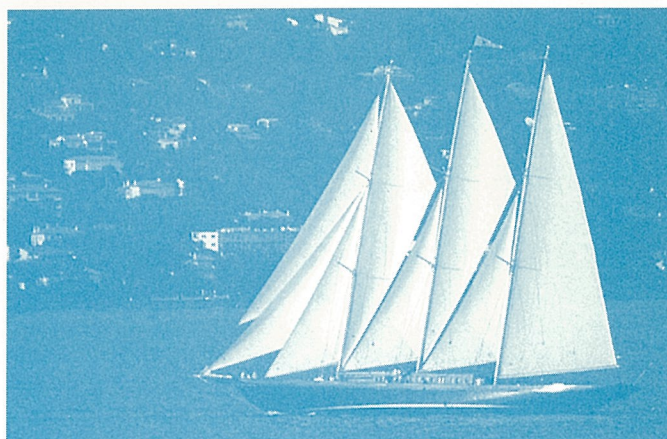

Video presentation can also be presented on its own, and there will be a separate room where these videos will be shown at certain favorable moments not conflicting with the scientific session. The lengths of these videos can be variable, but it is better to try to keep them as short as possible.

SCIENTIFIC TOPICS

- | | |
|--|--|
| 1. Research | 6. Lateral clefts - Microsomia - Treacher Collins |
| 2. Methods of diagnosis and prevention | 7. Rare anomalies |
| 3. New technologies: expansion - endoscopy | 8. Craniofacial tumors |
| 4. Craniosynostosis and faciocraniosynostosis | 9. Post-traumatic deformities |
| 5. Medial and paramedial clefts and teleorbitism | 10. Aesthetic surgery of the craniofacial skeleton |

Problem cases are encouraged as 3 minute-papers.

SAINT-TROPEZ

Saint-Tropez is a small old city built around its harbour. The Byblos Hotel is famous for its local flavor and beautifully decorated Provencal-style rooms, each and everyone different. Several other nice hotels are situated on or near the town square, the "Place des Lices" where our Conference Hall is located. Outside of town a short 10-minute drive from the city center, is located the beautiful Chateau de la Messardière.

LOCATION OF THE MEETING:

Salle Jean Despas, Saint-Tropez Conference Center - Place des Lices.

HOTEL ACCOMODATION:

Besides the Byblos, which is in the **** De luxe Category, along with the Chateau de la Messardière, several other less luxurious but still very pleasant places to stay have been chosen by the congress organizer (see attached Registration Form).

HOTEL RESERVATION DEADLINE: AUGUST 30, 1995

TRAVEL INFORMATION:

- The nearest international airport is Nice (90 kilometers), with flights arriving from worldover (New York City-Nice/Delta-daily & main European cities). There is a charter helicopter service, but car rental is easy (about 400 FF (US\$80) per day) and the drive takes about 1 and 1/2 hour (freeway).
- For those travelling through Paris, it is better to fly Paris-Toulon. The Toulon Airport is 50 kilometers from Saint-Tropez. Taxi or car rental is the best solution from Toulon.

SOCIAL PROGRAM:

- Welcoming Cocktail Saturday evening, October 21, at the Hotel Byblos (from 6 to 8:00 p.m).
- Official Dinner: Monday, October 23 at 8:00 p.m.

PRE-CONGRESS TOUR IN MARRAKECH

If circumstances are favorable, a three-day excursion to Marrakech (led by Paul Tessier and Daniel Marchac) will be organized.

The International Society of Cranio Facial Surgery has been founded in June 1983 in Montreal, as the Cranio Facial Chapter of the International Confederation for Plastic, Reconstructive and Aesthetic Surgery.
